

• CROSS PLATFORM APP DEVELOPMENT JURY 1

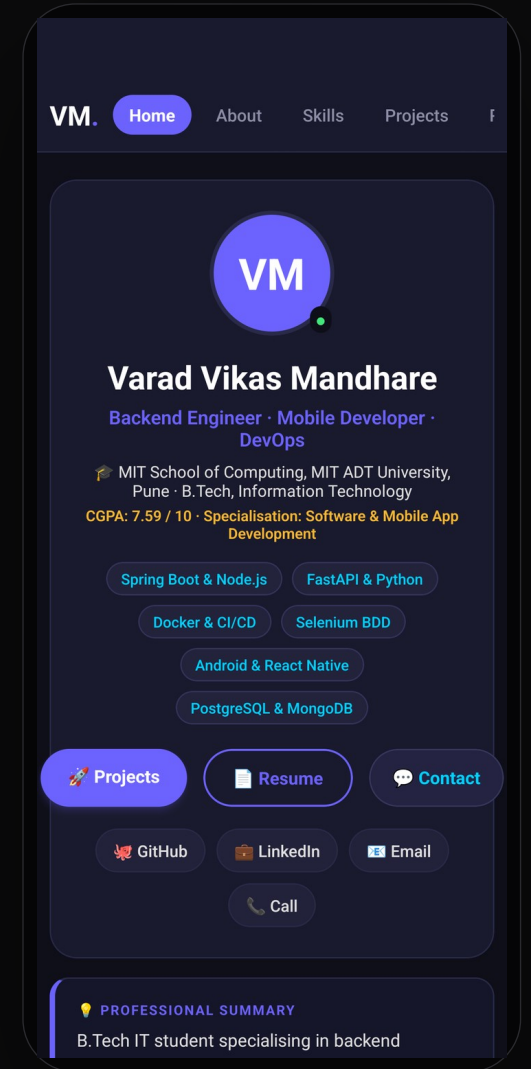

DevPortfolio

Personal Developer Portfolio & Interactive Resume
Mobile Application

Varad Vikas Mandhare

B.Tech Information Technology · MIT ADT University, Pune

React Native 0.86 · TypeScript · Android SDK

One place for the whole story.

01

Traditional resume

Static and length-limited. Production projects shrink to brief bullet points with no direct path to verified source code or running demos.

02

Web portfolio

Depends on desktop browsers, active internet connectivity, and shared URLs. Not tailored for on-the-go interactions during technical juries.

03

DevPortfolio App

A high-performance native Android app keeping profile, 24+ technical skills, 6 production projects, resume, and direct contact channels one tap apart.

- Building it natively in React Native & TypeScript makes the portfolio itself a working mobile engineering project.

Six goals, one application.

01

Present the developer

Profile, verified academic credentials (CGPA 7.59), Class Representative leadership, and research paper.

02

Showcase production work

Six projects (ELEVARE, BookSphere, Stockify, CI/CD, CyberScope, Travel Agency) with architecture notes.

03

Demonstrate technical skills

24+ skills across 6 domains with animated progress bars built via React Native Animated API.

04

Instant resume access

In-app digital resume card with one-tap link to download and view the official PDF document.

05

Make contact effortless

One-tap native phone dialing, email drafting, LinkedIn connection, and GitHub repository navigation.

06

Engineering excellence

TypeScript, modular screen design, decoupled data layer, and 100% Jest unit test suite.

Native tooling, end to end.

</> CORE

React Native 0.86.2

TypeScript 5.8

React Native CLI

🔗 ARCHITECTURE

Continuous ScrollView

Sticky Top Navbar

Animated.timing API

🔧 PLATFORM & BUILD

Android Studio & SDK

Vivo 1919 (Android 12)

Gradle & JDK 21

Bare CLI (No Expo)

🧪 TESTING & QA

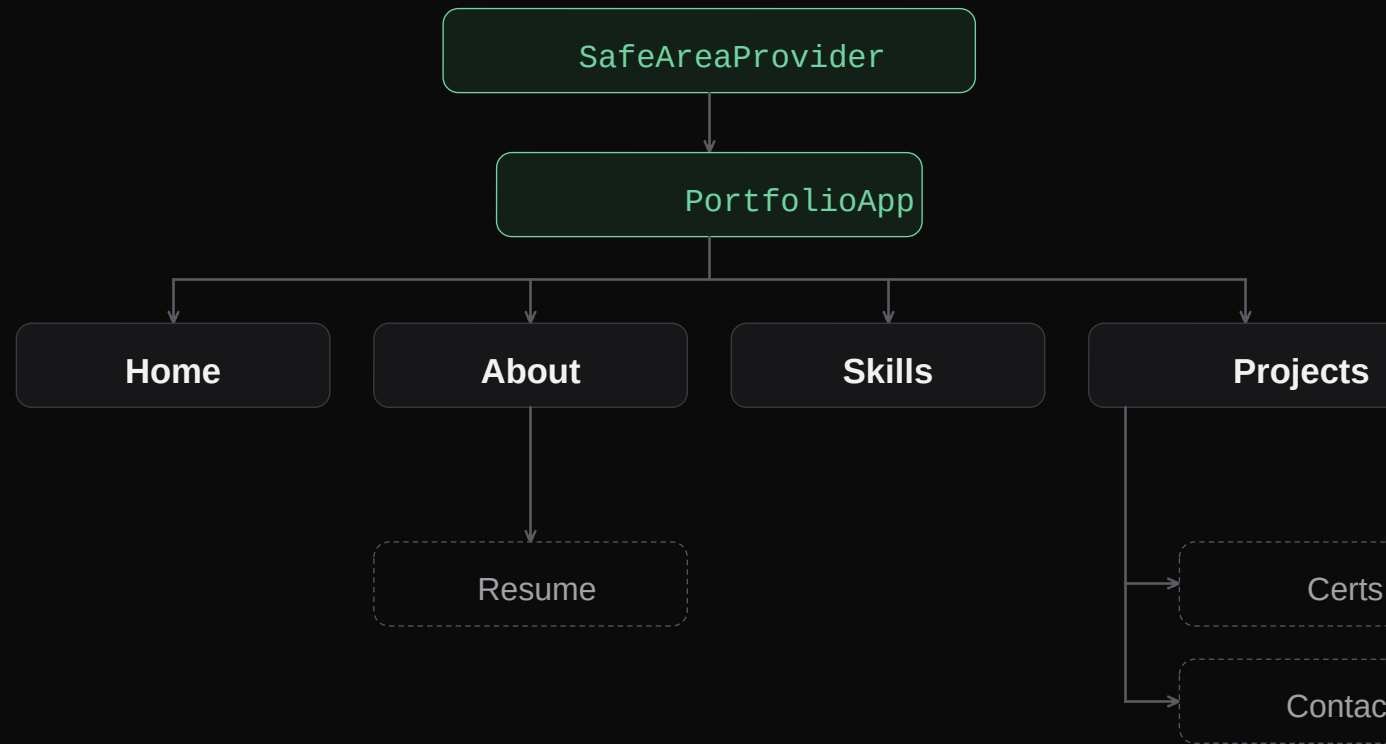

Jest & Test Renderer

ESLint (Zero warnings)

Git & GitHub CI/CD

- Bare React Native Community CLI workflow · Zero Expo bloat · Native Android SDK

Unified scroll flow with dynamic navigation.

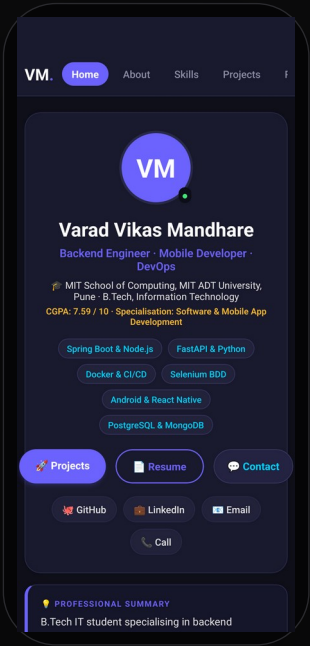

PROJECT STRUCTURE

<code>src/</code>	
<code>portfolio/</code>	PortfolioApp coordinator
<code>screens/</code>	7 modular section screens
<code>components/</code>	Navbar, SkillBar, Title
<code>data/</code>	portfolio.ts data layer
<code>theme.ts</code>	Dark Navy design tokens
<code>__tests__/</code>	Jest unit test suites

Dynamic onScroll offset calculation & smooth scrollToSection coordination

Four primary sections.

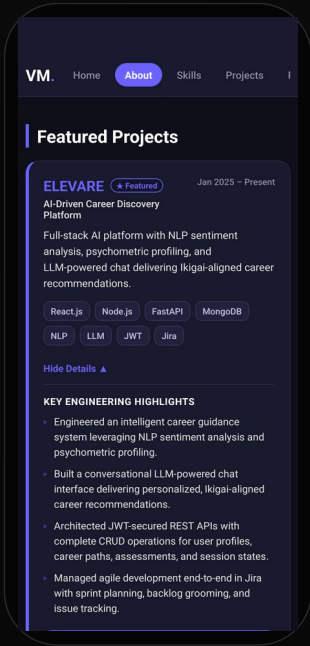

01 Home

Hero profile, stats & CTAs

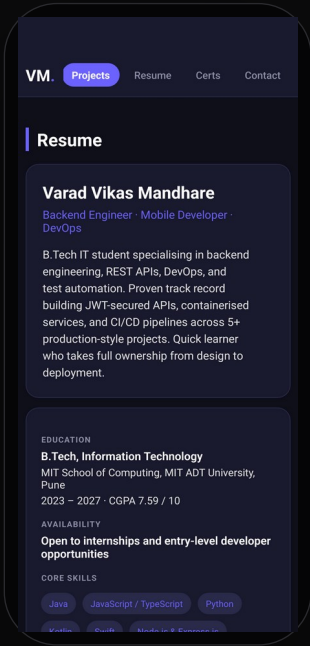

02 Skills

24+ animated skill bars

03 Projects

Featured project cards & links

04 Resume

Digital resume & PDF trigger

Six projects, one portfolio.

#	PROJECT	WHAT IT IS	BUILT WITH
01	ELEVARE	AI-Driven Career Discovery Platform	React.js · Node.js · FastAPI · MongoDB · NLP · LLM · JWT
02	BookSphere	DSA-Powered Online Bookstore	React 18 · Supabase · PostgreSQL · Dijkstra · Knapsack DP · Selenium
03	Stockify	Retail Inventory Android App	Android (Java) · Room DB · ZXing Barcode · WorkManager · Material 3
04	Selenium CI/CD	Enterprise Test Automation Framework	Java · Selenium WebDriver · TestNG · Maven · GitHub Actions · POM
05	CyberScope-AI	WiFi Security & Analysis Platform	Python · Network Security · WiFi Auditing · FastAPI · Linux · 1st Place Win

Each project includes architecture highlights, verified GitHub repository links (github.com/Varadha9), and live demos.

From 2023 to today.

EDUCATION & ACHIEVEMENTS

2023 – 2027
B.Tech Information Technology
MIT ADT University · CGPA 7.59 / 10 · Software & Mobile App Specialisation
2023 – Present
Class Representative (2 Years)
MIT School of Computing · Liaison for 60+ engineering students
2024 – 2025
Hackathons & Research
1st Place CyberScope-AI '25 · SIH Finalist '24 · Authored NLP Ikigai Paper

TECHNICAL PROGRESSION

2023 – 2024	Core Java Programming & DSA
2024	Full-Stack Web & MySQL (Travel Agency MVC Booking)
2024	Native Android Development (Stockify, Room DB)
2024 – 2025	Test Automation & CI/CD (Selenium, TestNG, GitHub Actions)
2025	Full Stack Web & AI/NLP (ELEVARE, FastAPI, LLM)
2026 – Present	Cross-Platform Mobile Development (React Native, TypeScript, CPAD)

What the app does.

Animated Skill Bars

Smooth React Native Animated.timing

Sticky Dynamic Navbar

Scroll-synced active tab tracking

Direct Contact Actions

One-tap phone, email, LinkedIn, GitHub

GitHub Deep Links

Direct source links for every project

Digital Resume Viewer

In-app summary + raw GitHub PDF action

Modular Data Layer

Isolated portfolio.ts for 100% decoupling

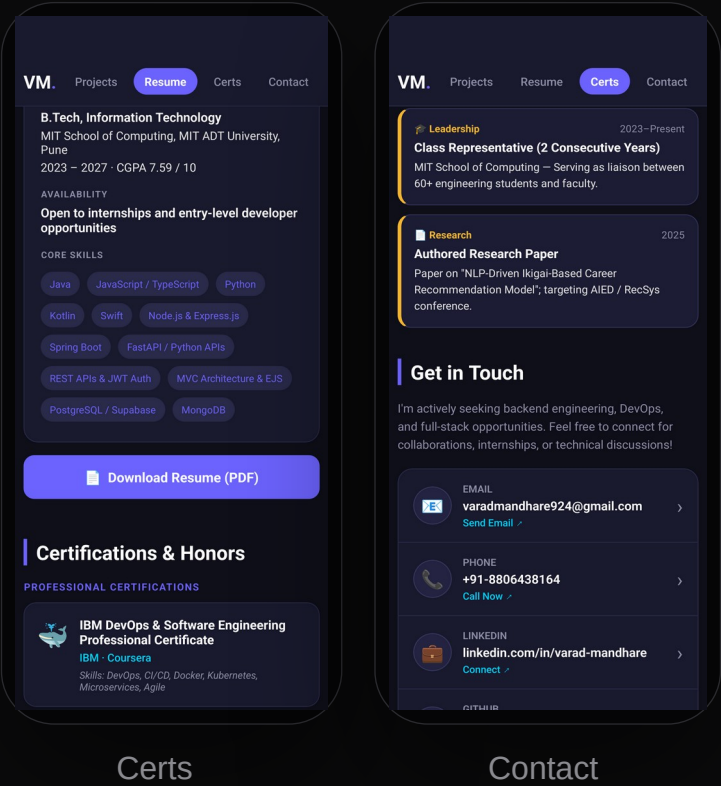

Dark Navy Theme

Harmonized tokens in theme.ts

Unit Tested Suite

100% Jest test pass across screens

Dark aesthetic by intention.

Inspired by modern developer tooling: high contrast, vibrant multi-color accents, and fluid tactile feedback.

01 Dark navy canvas (#0F0F1A / #1A1A2E)

02 Multi-color accents (Purple, Cyan, Green)

03 Strong visual hierarchy & card containers

04 Animated progress bars (Animated API)

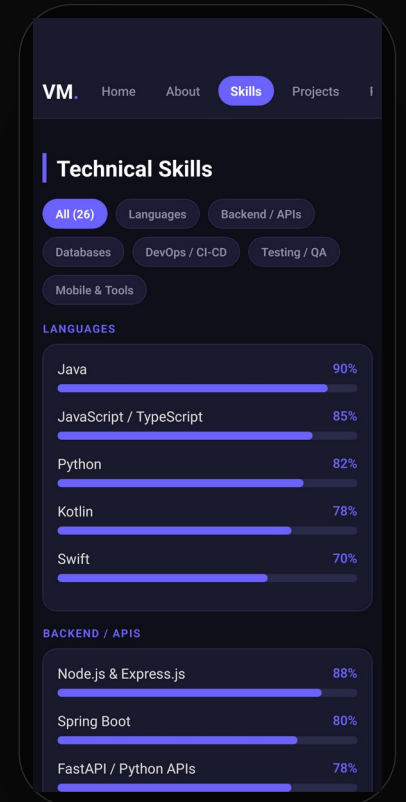

05 Thin border separators (#2A2A4A)

06 Minimalist stats & quick skill badges

07 Ergonomic touch targets with feedback

08 Dynamic top navigation with auto-sync

09 Safe area & notch adaptation

Verified on Android.

FLOWS TESTED ON PHYSICAL ANDROID DEVICE (VIVO 1919)

- | | |
|--------------------------------|------------------------------|
| ✓ Navigation & Sticky Navbar | ✓ Interactive Resume Viewer |
| ✓ Continuous Section Scrolling | ✓ PDF Resume Download Action |
| ✓ Animated Skill Progress Bars | ✓ One-Tap Phone Dialing |
| ✓ Project Cards & Highlights | ✓ Email Client Hand-Off |
| ✓ GitHub Deep Links | ✓ LinkedIn & GitHub Links |

TYPESCRIPT & CODE QUALITY

```
npx tsc --noEmit && npm run lint
```

• 0 errors · 0 warnings · Clean compile

TEST SUITE & ANDROID BUILD

Jest: 2 suites, 10/10 tests passed (8.4s)

• Clean Gradle assembleDebug SUCCESS

VERSION CONTROL

github.com/Varadha9/CPAD

6b24f60 · fix: ResumeScreen — use correct fields

One app, the whole journey.

CPAD Developer Portfolio consolidates personal branding, 24+ technical skills, 6 production projects, academic milestones, and one-tap contact channels into a unified, high-performance native Android application.

FUTURE SCOPE

- 01 Google Play Store Release (.aab bundle)
 - 02 Cross-Platform iOS & iPadOS Deployment
 - 03 Offline Caching & MMKV State Persistence
 - 04 In-App Interactive WebViews for Live Demos
 - 05 Push Notifications via Firebase Cloud Messaging
-
